PROFILE

I am passionate about leveraging technology to address complex problems and drive innovation. My skills include Python programming, Google Cloud Computing, and a robust understanding of both frontend and full-stack development. With a strong focus on data analysis and machine learning, I am dedicated to continuous learning and staying at the forefront of technological advancements. I'm eager to connect and explore opportunities for collaboration to create impactful solutions.

POSITION OF RESPONSIBILITIES

Web Developer & Marking Joint Head - E Summit'25

January 2025 - March 2025

- Contributed to E-Summit 2025 at Punjab Engineering College, Chandigarh as part of the Marketing, Sponsorship, and Finance Committees, and also served as a Web Developer. Designed and developed responsive web solutions, enhanced user experience, and collaborated with cross-functional teams to ensure sponsor integration and smooth event execution.

Frontend Web Developer Intern - WebinOrbit

September 2024 - November 2024

- Interned as a frontend web developer, contributing to the design and development of responsive web applications, optimizing user experiences, and collaborating closely with cross-functional teams to implement innovative solutions

PROJECTS

News Application

- News Diary: Stay informed with real-time news updates across categories like Business, Sports, Fashion, and Entertainment.
- Live Updates: Get breaking news as it happens.
- Categorized Content: Explore articles organized by topic.
- User Customization: Personalize your news feed.
- Fast Load Times: Efficient caching for swift article loading.
- A dynamic web application built with React.js, styled using Bootstrap, and powered by real-time news data through APIs.
- Git Repository: https://github.com/Asachdeva001/News-Diary

Cloud Notepad

- iNotebook – Cloud-Based Note-Taking A
- Secure Note Management: Users can log in to create, edit, and organize notes with titles, descriptions, and custom tags from any device.
- Responsive Design: Built with React.js and Bootstrap, ensuring a seamless experience across various devices.
- Robust Backend: Employs Node.js and Express for server-side operations, with MongoDB handling data storage.
- Security Measures: Implements authentication tokens and encryption to safeguard user data.
- GitHub Repository: https://github.com/Asachdeva001/iNotebook

Some Frontend Designs

- Designing text, creating stylish share buttons, crafting elegant navbars, optimizing images, styling cards, and adding appealing borders to enhance user interfaces
- Git Repository: https://github.com/Asachdeva001/Frontend-Designs
